

ELECTRIFICATION

Cable management

Cable trays and cable ports are useful and practical cable management solutions complementing the workstations.

They can be used for both single and multi-workstations. Various colours are offered (depending on the product) to match the finishes of our furniture ranges.

Cable port covers Ø 80 mm
To fit into D 80 mm cable port.

Spine cable channel
Articulated universal spine cable channel.

Single metal cable tray
Made from 0,8 mm thick steel sheet.

TECHNICAL DESCRIPTION

Cable trays

- Made from 0,8 mm thick steel sheet.
- Various models are available for single workstations and multi-workstations. They provide horizontal storage for cables and power outlet strips.
- Attachment by universal clamps under the desktops (inserts or wood screws depending on models) or on the Structorex® melamine-coated modesty panels.

Universal cable ducts

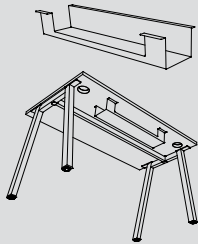

- Allow cables to circulate under the tops and can be used as cable management on melamine legs.
- 2 models : 4 rings (screws not supplied) and 6 rings (screws and adhesive tape supplied).
- To be fixed by wood screws on melamine panels or under the tops.

Spine cable channels

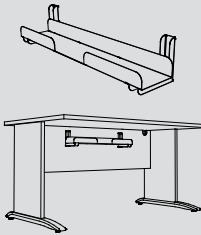

- Made of PVC.
- Different models to equip both fixed and height-adjustable workstations. Spine cable channels allow the vertical circulation of the cables from the tops to the ground.
- To be fixed under the tops of the desks with wood screws.
